

# Jingjing Zhao - Full Stack Engineer

+972-0587082951 | zhaojingjing9595@gmail.com | [Github](#) | [LinkedIn](#)

## Summary

Full Stack Engineer with 4 years of experience building web applications for networking product and distributed backend services, using React, Node.js, Python, MongoDB/PostgreSQL, and cloud deployment. Graduated with an M.Sc. in Engineering from the Technion. I enjoy digging into hard problems, thinking a few steps ahead and I'm always drawn to learning new things. Currently deepening my expertise in Machine Learning and Generative AI including building AI-integrated applications and automation workflows.

## Technical Skills

**Languages:** Javascript, TypeScript, Python, Java, SQL, NoSQL, Bash

**Frontend:** React, Next.js, Meteor Blaze, Tailwind, HTML, CSS

**Backend:** Node.js, Express, REST APIs, FastAPI, Redis, GraphQL, Microservices

**Database:** relational/non-relational DB, MongoDB, PostgreSQL, MySQL, Firebase firestore

**ML:** scikit-learn, XGBoost, PyTorch / TensorFlow, Feature engineering, EDA, model evaluation & metrics

**AI:** Claude Code, Cursor, ChatGPT; LLMs, NLP, RAG pipeline, prompt engineering, MCP

**DevOps & Platforms:** CI/CD, Git/Github, Linux/Ubuntu, Docker, Postman, Vercel, Render, Neon, Supabase, Railway, AWS/GCP, Vultr Cloud

## Professional Experience

| 2022-2025 | Full Stack developer                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | BBT.live | Tel Aviv |
